Wed 24th LNOFF

Sat 27th Field Trip

Sat 27th LNOFF

Keeping you up with the dates of NOSSA

If you have dates/events that you would like to circulate to the NOSSA membership you are welcome to let us know at nossa.seeds@gmail.com.

Remember LNOFF, is the Les Nesbitt Orchid Propagation Facility and anyone is welcome to attend, but please let nossa.seeds@gmail.com know of your intended attendance so that we can arrange security, guide you in, or meet you at the end of public transport route. Most open days (listed on the left) start at 10am.

General Meeting is held at St Matthews Hall on Bridge St Kensington. The Hall is usually open from 7 for 7.30 start.

First, we acknowledge the members that put in time for NOSSA. They do a lot of different things that help make NOSSA what it is – friendly, learned, people with an interest in the conservation, propagation and learning about native orchids with the result that native orchids are conserved in situ, grown to maintain biodiversity of bushland and revegetation projects, and the public learn about orchids too. Things we can be proud of!

Did you know there are ways that you could assist NOSSA? There are vacancies in Marketing, Events, Speaker Coordinator, as a member on the Management Committee, as Secretary, one of the 2027 celebration activity leaders. We are happy to tailor the role to suit your time available, even tailor the tasks, provide a mentor and happy to discuss what you are interested in. So, do you have spare time for NOSSA?

On the long weekend (6 -7th June) the Orchid Fair is happening out at the hall behind the Campbelltown Council chambers. The Fair entry is \$7 with a free tea/coffee. There are country groups that set up wonderful orchid displays and a number of interstate orchid specialists with things to sell. NOSSA has a information stand and this is a good stall to come to help on because there are plenty of experts to answer questions and plenty to see. You do not need to stay the full day, it could be a few hours over lunch, or just the morning or afternoon but please let the secretary email know of your intended attendance and time so we can plan our roster.

BIG NEWS ! Les Nesbitt has self-published his 2nd edition of **Terrestrial Orchid Culture in Adelaide. The fundamentals explained.** We will have a couple available (if you ask us) at the Orchid Fair
